

Managed PC & Server Security Services

PC Tariff	£18 per month
Server Tariff	£95 per month
Additional Servers	£80 per month

Reduce downtime and secure your environment

- Secure your data and stop it from being exposed
- Proactively prevent downtime to ensure business continuity
- Reduce the amount of time it takes to resolve issues
- Increase employee productivity
- Gain visibility of what has been prevented and resolved on your PCs each month and your ROI

Features

(Note: For servers only; on-site visits are chargeable, unless an Enhanced Remote Access Unit is installed).

Antivirus, Management and Remediation

- We look after your anti-virus capabilities to protect your PC. In the case of an infection, we will remove the virus.

Patching Management and Remediation

- Install Windows Updates (patches) on the second Tuesday of the month in the evening to reduce inconvenience. We will test the patches before roll out, and resolve any errors that may arise as a result.

Monitoring

- We monitor disk space, application errors, hardware errors, failed login attempts, operating system errors.

Remote Access

- We are able to remotely access your PC to quickly resolve any issues without the need for any user action (no need to even access a remote support tool for the IT Technician).

Security Scanning and Remediation

- A daily scan of the computer to alert us of any security vulnerabilities which may need rectifying.

Web Filtering

- Blocks types of websites which are likely to potentially harbour malicious software or inappropriate content (which can be customised to the business' needs).

Monthly Reporting

- We will update you each month with a report on what issues were prevented, encountered and resolved.

Management Policies

- Controls the configuration of PCs. i.e. desktop backgrounds, drive access, physical port access, behaviour of the PC.

Software Updates and Management

- Allows the deployment of new software and manages the updating of currently installed software such as Google Chrome, Skype, Dropbox, PDF Reader
